

## TRIAx Cabinets

All cabinets are furnished with „hidden“ air slots giving ample ventilation. The top cover is insulated to prevent condensation. The cabinets are manufactured of high grade galvanized steel and coating of polyester ensures a long durability.

- The 20SA pedestal is equipped with a triangular lock, the 35SA cabinets are equipped with Ruko cylinder lock (yale type) and or with a triangular lock
- The cabinets can be supplied with a drop in, water resistant chip board mounting panel, or a panel of chip board clad with aluminium
