

## PCT Compression Connectors

F PLUG COMPRESSION (RG 59)		
PCT TRS 59L	TRS Universal Compression Connector, Series 59, Torque Retaining, PCT patented locking mechanism, Lock washer guarantees a secure, metal to metal quality connection between F male and female ports, Delivers supreme barriers against moisture intrusion without the need for an external grommet (i.e. weather seal).	
F PLUG COMPRESSION (RG 59)		
PCT TRS HE 59L Headend Connector	TRS Universal Compression Connector, Series 59, Head-End, Torque Retaining, Standard Shield through Quad Shield, PCT patented locking mechanism, Lock washer guarantees a secure, metal to metal quality connection between F male and female ports Delivers supreme barriers against moisture intrusion without the need for an external grommet (i.e. weather seal).	
F PLUG COMPRESSION (RG 6)		
PCT TRS 6 L	TRS Compression Connector, Torque Retaining, Series 6, Universal, PCT patented locking mechanism, Lock washer guarantees a secure, metal to metal quality connection between F male and female ports Delivers supreme barriers against moisture intrusion without the need for an external grommet (i.e. weather seal).	
F PLUG COMPRESSION (RG 6)		
PCT TRS 6 LNT Nickel Tin Plating	TRS Compression Connector, Torque Retaining, Series 6, Universal, PCT patented locking mechanism, Lock washer guarantees a secure, metal to metal quality connection between F male and female ports Delivers supreme barriers against moisture intrusion without the need for an external grommet (i.e. weather seal).	
IEC MALE COMPRESSION CONNECTOR, STD/TRI SHIELD (RG 6)		
PCT DRS 6 IFNT	RG-6 IEC FEMALE Compression Connector, STD/TRI SHIELD	
IEC MALE COMPRESSION CONNECTOR, STD/TRI SHIELD (RG 6)		
PCT DRS 6 IMNT	RG-6 IEC MALE Compression Connector, STD/TRI SHIELD	
F PLUG COMPRESSION (RG 11)		
PCT TRS 11 LMG	TRS Universal Compression Connector, Torque Retaining, Series 6, PCT patented locking mechanism, Enhanced shielding, Continuous grounding Lock washer guarantees a secure, metal to metal quality connection between F male and female ports Improved ground contact both when tight and loose. Delivers supreme barriers against moisture intrusion without the need for an external grommet (i.e. weather seal).
