  - 2U chassis holds 18 each splitter modules
- Integral fiber management trays on the front
- Solid steel construction from powder coated CRCA
- 2011/65/EU RoHS compliant and halogen free
- Parking Panel for spare splitter leads (sold separately)
- Fiber management accessories available

Overview

PPC's 19 inch GEN2 PLC Splitter Chassis are designed for quick installation and easy access to PPC's versatile splitter modules, which maximize fiber density in 1U and 2U rack spaces. Fiber management trays are built into the front of the splitter chassis to facilitate efficient management of the splitter leads. A 64-fiber splitter parking panel and a 1U fiber manager are also available.

The GEN2 PLC Splitter Modules are enclosed in a chemically-resistant housing and are fully compliant with Telcordia GR-326, GR-1209 and GR-1221 standards. They easily snap into, and finger release from, splitter slots in Fiber Distribution Hubs or Splitter Chassis (no tools required).
