

AFL Optipop C

CARD CLEANER FOR FIBER OPTIC CONNECTORS

The OPTIPOP-C cloth card cleaner uses a unique, densely woven micro fiber cloth that provides a superior connector cleaning performance. It minimizes static charge to ensure that dust and dirt particles are not instantly attracted back to the connector end-face. The card cleaner effectively removes contaminants such as oil, dust and dirt particulates that cause high insertion loss and reflectance that lead to connector damage and network failures.

- High performance cleaning cloth captures dirt particulates
- Minimizes static attraction
- Refillable cards with 12 cleanings per card
- Available for SC, FC, ST, LC and MU connectors with UPC or APC polishes.
- Accommodates LC, MU and SC duplex connectors
- Suitable for laboratory or field use
